CT DPH-ADAP Program Dispensing Polices

Please call 1-800-424-3310 or check website at <https://ctdph.magellanrx.com> for additional formulary coverage questions.

All drugs are to be dispensed with a maximum 90-day supply.

Refills may be obtained after 93 percent of the previously dispensed days' supply and 85 percent if days' supply of 15 or less is dispensed; however, there is an annual maximum of 13 fills per prescription.

All covered formulary capsule and tablet formulations have a quantity limit of 240 tablets/capsules per fill (except Tivicay PD which has a quantity limit of 540 tablets per fill).

All covered formulary liquid formulations have a quantity limit of 500 mL per fill (except for Serostim which has a quantity limit per fill of 28 mL per fill).

All covered formulary inhalers have a quantity limit of 2 units per fill.

CT DPH mandates the use of generic products whenever possible in accordance with applicable law or regulations.

Dispensing a brand name product when a generic is available requires a DAW 1 code and calling the Pharmacy Call Center at 1-800-424-3310. Exceptions are noted by drug.

All Antiretroviral combinations are screened against the most recent DHHS guidelines for the use antiretroviral therapy in adolescents and adults <https://aidsinfo.nih.gov/guidelines/html/1/adult-and-adolescent-treatment-guidelines/0> for high dosage and non-recommended combinations. Regimens not conforming to these guidelines may be rejected at adjudication.

The following drug manufacturers or manufacturer label code/s are excluded from reimbursement through the CT DPH ADAP Program:
